

MAKING YOUR HOME MORE BEAUTIFUL

CUSTOM BUILT

WINDOWS & DOORS MADE IN RI

Choosing that perfect entrance

Your home expresses the way you live. So make your home more distinctive with decorative door glass for your entry door, sidelights and transom. Decorative glass will echo your creative flair, and meet your desired degree of privacy and light filtration. Use this catalog to select a memorable entrance that expresses your lifestyle and makes your home more beautiful.

Expressions door 686-EX • sidelights 694-EX • transom 521-EX

Select your door style

When selecting your entryway, it's helpful to first decide which door style and configuration is your favorite. Whether you choose a steel or fiberglass door, Custom Built offers nearly limitless combinations of doorlights, sidelights and transoms in a variety of shapes and sizes.

Oak Park door 686-KP • sidelights 694-KP • transom 521-KP

Steel Entry Doors

- 22 gauge steel for strength, security and durability
- Hot-dipped dual galvanized steel will not rust from the inside out unlike many low-quality slabs

Fiberglass Entry Doors

- Developed specifically to resist denting and cracking
- Will not absorb heat and cold like steel, offering greater comfort and protection
- Woodgrain slabs provide the rich, textured warmth of real wood without the shifting and expanding from standard wood doors

All Entry Door Systems

- Fully insulated doors with an inner core of environmentally-friendly polyurethane foam (R-13)
- Compression weather-stripping and adjustable threshold keep out drafts, ensuring maximum energy savings
- Doors come primed ready for paint; woodgrain doors can also be stained
- Custom jamb thickness ensures a professional fit and finish
- 20yr seal failure glass warranty

DOORGLASS BLIND

LightTouch® ENCLOSURED BLINDS

Raise, Lower, Tilt

- The single operator lets you raise, lower or tilt the blinds in an easy slight movement.
- Blinds adjust for complete light block, and the privacy channels on each side eliminate light gaps when the blinds are closed—no street light shadows or sunlight glare.
- More privacy at night and increased sense of security.
- Ergonomic design principles place fingertip control within easy reach.

TRADITIONAL DOORS

Low-E glass with Internal or External Grilles

Low-E Glass

Reduces Solar Heat Gain

In cold weather, Low-E glass stays warm on the inside, minimizing cold spots and convection currents.

Reduces Condensation

Cold glass and warm, moist indoor air can cause damaging condensation. Low-E glass keeps glass warmer, reducing condensation.

Reduces Fabric Fading

Low-E glass protects fabrics, carpets and all coverings from fading by blocking up to 61% of harmful ultra-violet rays.

Proven Energy Saver

Increased energy efficiency equals increased savings for homeowners.
